

# ***SIMULATED FIRE TRAINING***

***Hands-On  
Instruction  
in the Comfort  
of YOUR  
Conference Room.***

# Advantages of Fire Simulator Training:

**The Ansul Fire Simulator** provides realistic fire extinguisher training for both veterans and first-time operators. Its patented design provides a complete fire training center in a 160 sq. ft. (15 m<sup>2</sup>) area. All components are matched to provide maximum performance with minimal set-up time.

## **No Fuel or Chemical...**

*provides big savings with no cleanup and zero environmental impact.*

## **Day or Night, Rain or Shine...**

*never worry about canceling or rescheduling.*

## **Efficient...**

*train up to 200 students/day on 1 fire... or 150 students/day on 2 fires.*

## **OSHA Compliant...**

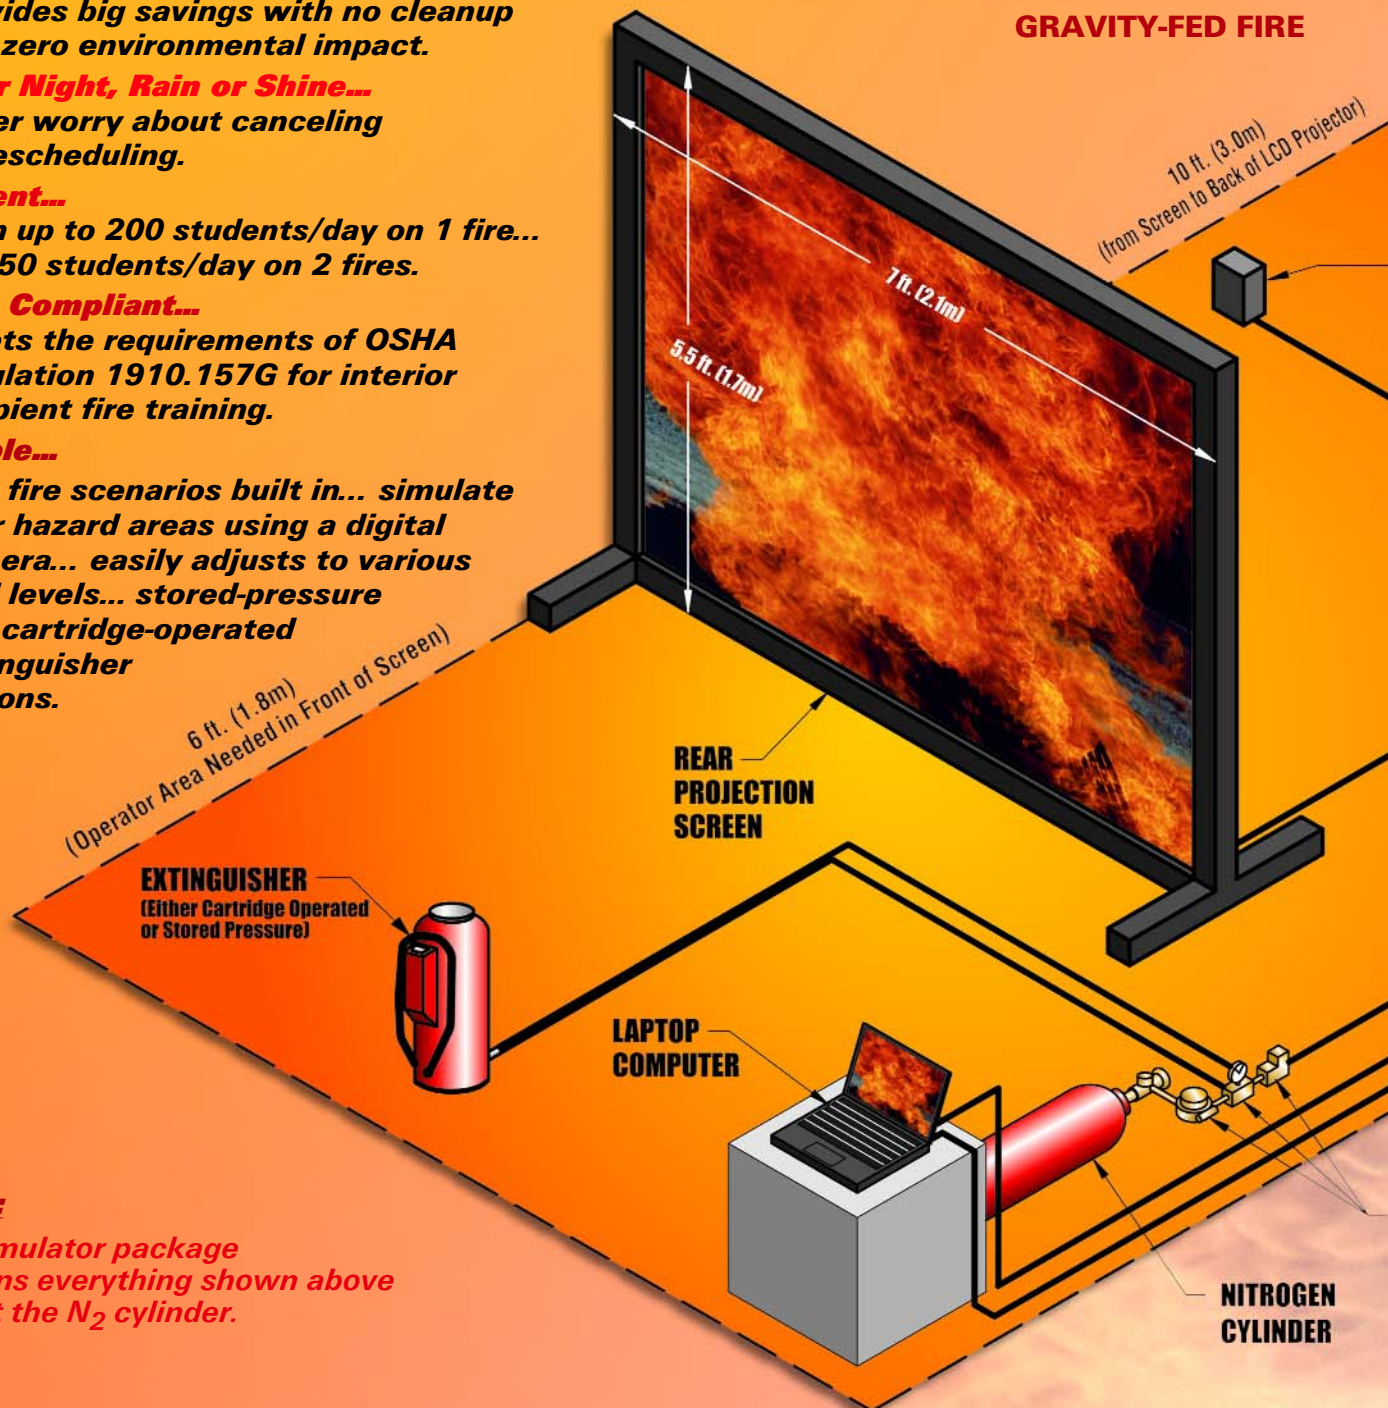

*meets the requirements of OSHA regulation 1910.157G for interior incipient fire training.*

## **Flexible...**

*four fire scenarios built in... simulate your hazard areas using a digital camera... easily adjusts to various skill levels... stored-pressure and cartridge-operated extinguisher options.*

**GRAVITY-FED FIRE**

## **NOTE:**

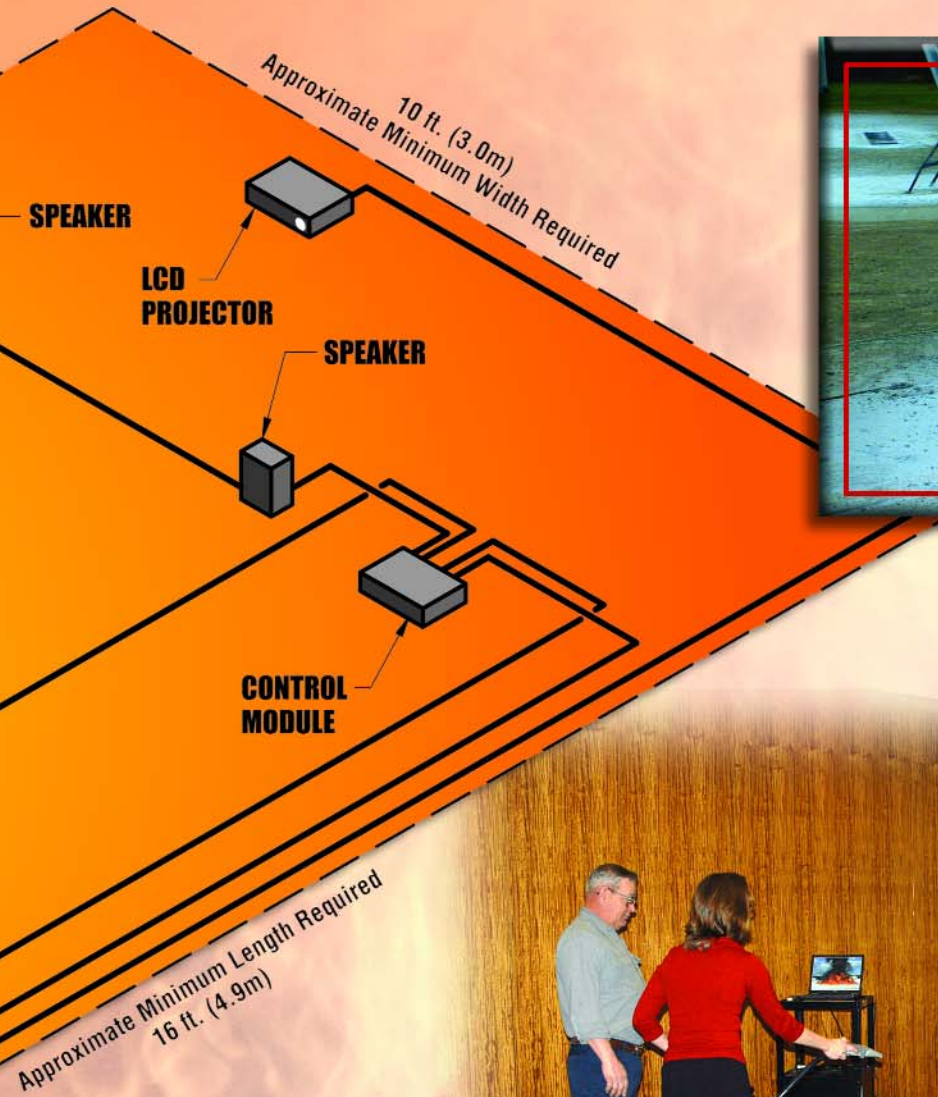

*The simulator package contains everything shown above except the N<sub>2</sub> cylinder.*

**SPILL FIRE**

**FUEL-IN-DEPTH FIRE**

**STORAGE LOCKER FIRE**

**REGULATOR and PRESSURE SOLENOID ASSEMBLY**
